Walter Mains of Belle Center, Ohio, has originated dozens of fine peonies. To date, only nine have been offered for sale to the general public. We at Joycelyn Gardens are proud to have been given exclusive rights to introduce these fine peonies. During the past six years, they have been widely distributed over the U. S. winning honors and acclaim wherever grown or entered in exhibitions. Increasing stocks make possible substantial price reductions for several varieties.

Lactiflora (albiflora) Varieties:

- CONSTANCE MOORE -- A dark red, self-colored Jap. of medium size. Laterals give it a long season of bloom - the last in the garden. Tall, vigorous plant with dark green foliage. Fine for garden and landscape plantings. \$3.50
- FRANCES MAINS ---- An immense light pink double. Late. A distinguished exhibition flower. Grand champ. at Minneapolis 1959. \$20.00
- MARGARET CLARK --- A large, late, dark pink double of exhibition quality on a good plant. \$3.50

Herbaceous Hybrids:

- ANN ZALLER ----- A light red of medium size. Four or five rows of petals with a nice cushion of stamens. Petals crinkled, giving it style and charm. Substance extra. \$5.00
- BELLE CENTER ----- Very large, almost double. Medium red with blue tone. Different and spectacular. \$7.50
- BUCKEYE BELLE ---- Semi-double of medium size. Very dark red with unusual sheen and brilliance. \$5.00
- CHARLES MAINS ---- A very large double of rose-like formation. Medium pink. Spectacular for exhibition or cut flowers. Fades in bright sun. American Home Medal winner. Only a few divisions available. \$20.00
- FIREBELLE ----- Brilliant red semi-double, medium to large. Plant is a good doer; tall, so that long stems can be cut without injury to plant. First sold as seedling 20x. We like this one better every year. \$5.00
- WALTER MAINS ----- Named for the originator. A large, dark red of true Japanese type. Full cushion of red and gold staminodes. No other hybrid like it. \$10.00
